

## Fancy Panties

Fingering weight yarn  
#1 needles

gauge: 7 stitches in one inch

- If you are going to knit plain you may start stockinet now.
- If you are going to use your own lace pattern you must do your own math but remember there's only an inch of it.
- If you are going to use my lace pattern purl one row, adding one stitch in there somewhere so you have 49.

I have only made this with fingering weight wool. If you use cotton you may want to add elastic to the waist, either by carrying an elastic thread with the ribbing or adding it to the inside after it finished.  
Briefs are not authentic for historic dolls before Molly.
